Keep national party politics out of local government

## **Widening of Woodfield Lane**

16th January 2015 by Chris Townsend

Following the consultation completed a couple of years ago, Woodfield Lane down to the station, via the tree lined avenue, is now to provisionally be completed mid-2015. Apologies for the time delay but 'common land' issues have had to be considered. Currently those issues are being looked at by the Minister of State, with a decision due in the coming month. This project will resolve the parking issues that create long queues towards the level crossing.
